

**REMARKS**

Withdrawal of the Restriction Requirement is respectfully requested in view of the following amendment and argument. No claim has been amended. Claims 31-48, 54, and 55 are pending in this application.

***Summary of the Restriction Requirement***

In the Office Action, the Examiner has required restriction under 35 U.S.C. §§121 and 372 to one of the following groups of claims:

Group I: Claims 31-42, 46-48, and 54-55, drawn to a method for wrapping an article.

Group II: Claims 43-45, drawn to an article.

With regard to this grouping, the Examiner has indicated that “[t]he inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: group II recites an article having a form of a cylinder with non-uniform diameter and wherein a film wrapped around the article is printed to form a label which are not recited in group I and thus group II has special technical features not shared with group I.”

***Election***

Applicants hereby elect Group I, which now includes claims 31-42, 46-48, and 54-55, drawn to a method for wrapping an article, without traverse. Thus, it is respectfully
